## **T.C. 169 Rinse Aid**

### **PRIMARY APPLICATION**

T.C. 169 is a liquid concentrated additive for industrial operations. It provides rapid sheeting of the work for spot-free and streak-free parts. T.C. 169 reduces the drying time and thus reduces the chance for flash rust to develop.

### **USE**

Actual concentrations of T.C. 169 are dependent upon the individual operating conditions of the system. The concentration is usually maintained at a volume of 2%. Best results are obtained when an operating temperature of 165°-185°F is maintained.

### **SPECIFICATIONS**

|               |              |
|---------------|--------------|
| Form          | Clear Liquid |
| Wetting       | Excellent    |
| Biodegradable | Yes          |
| Rinseability  | Excellent    |
| Odor          | Mild         |

### **CAUTION**

Mildly alkaline. Avoid contact with skin and eyes. Should contact occur, flush skin and eyes with copious amounts of water for 15 minutes.

**DO NOT TAKE INTERNALLY.**
