

## **T.C. 1107-3L**

### **Corrosion Protection**

#### **DESCRIPTION**

T.C. 1107-3L is a clear, aqueous liquid that affords corrosion protection under indoor storage conditions for periods of up to 180 days.

#### **OPERATION**

T.C. 1107-3L is recommended for use in protecting ferrous materials from rust under normal indoor storage conditions. It has no build-up and will not interfere with tolerance measurements. It may be applied by immersion or spray as a rinse solution following alkaline cleaning.

#### **SPECIFICATIONS**

pH of use solution (1%)	9.6
Weight	11 pounds per gallon
Equipment	Mild steel
Concentration	10% to 15% by volume in water
Temperature	Room temperature to 180°F

The above conditions may be adjusted to achieve optimum results.

#### **HANDLING**

Keep container closed. Keep from freezing. Flush splashed area with water. Use rubber or neoprene gloves and goggles, as well as protective clothing when handling or making up work solutions. Avoid contact with skin or eyes. In case of accidental splashing, wash well with water and seek medical attention if irritation occurs. Do not take internally. Keep out of the reach of children. For industrial use only.
