

T.C. 138

Rust Preventative

DESCRIPTION

T.C. 138 is a water based corrosion inhibitor designed for the manufacture of non-staining dry-to-the-touch rust preventatives. T.C. 138 is completely synthetic and does not contain any oil or its derivatives and is intended for use on steel surfaces.

PROPERTIES

Specific gravity @ 25°C	>1
Pounds per gallon	9.2
Color	Amber

APPLICATIONS

Using levels of 8% to 15% in water will give up to six months indoor rust protection. T.C. 138 produces a fast drying hard film coating. A 10% in water solution will pass a 30-Day Humidity Cabinet Test.
