

T.C. 735

Rust and Scale Remover

DESCRIPTION

T.C. 735 is a granular dry-acid rust and scale remover. It has been specially formulated to provide safety, ease of handling, and economy. It is inhibited against attack on base metals and will not affect dimensional tolerances. T.C. 735 is completely biodegradable and phosphate-free.

OPERATION

T.C. 735 is recommended for use on all ferrous metals. To charge the tank, add T.C. 735 to hot or cold water and stir until dissolved.

SPECIFICATIONS

Equipment	Stainless Steel or lined tanks are recommended
Concentration Range	½ -2 pounds per gallon
Temperature Range	160° - 200° F.
Immersion Time	As required

SAFETY PRECAUTIONS

T. C. 735 is acidic and can cause skin irritation. Wash affected areas with water and weak ammonia. See a physician if irritation persists. For eyes, flush with water and get medical attention.
